CAREER OBJECTIVE

To work as a **Junior Full Stack Developer**, with a strong focus on **Front-end development**, applying knowledge in **JavaScript, HTML5, CSS3, and Node.js** to build web applications, integrate REST APIs, and work with SQL databases, contributing to functional, well-structured solutions with a great user experience.

PROFESSIONAL SUMMARY

Entry-level **Full Stack Developer** with a focus on **Front-end**, experienced in academic and personal projects involving the development of complete web applications. Skilled in **JavaScript, HTML5, CSS3, Node.js, Java, and SQL**, with experience in creating and consuming **REST APIs**, version control using **Git/GitHub**, and applying **Object-Oriented Programming (OOP)** concepts. Proactive, collaborative profile with a strong interest in continuous learning.

TECHNICAL SKILLS

- JavaScript
- HTML5
- CSS3
- Front-end Development
- Full Stack Development
- Node.js

- REST APIs (GET, POST, PUT, DELETE)
- SQL Databases (MySQL, SQL Server, Oracle)
- Java
- Object-Oriented Programming (OOP)
- Git
- GitHub
- Programming Logic

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer | Self-Employed

Academic and Personal Projects

Jan/2024 – Present

- Developed complete web applications with a strong focus on usability, centralizing user information into a single interface
- Built front-end interfaces using **HTML5, CSS3, and JavaScript**, prioritizing intuitive navigation and fast access to information
- Developed **REST APIs** using **Java and Node.js**, implementing CRUD operations (GET, POST, PUT, DELETE)
- Designed and used **SQL databases** for dynamic data storage
- Developed a **Sports Management Dashboard**, enabling team organization, expense tracking, and athlete management
- Used **Git and GitHub** for version control and code management

PROJECTS

Full Stack Web Portfolio

- End-to-end application development
- Single-page interface focused on usability
- Technologies: HTML5, CSS3, JavaScript, Git/GitHub

Dashboard Fut 360

- Sports management system for controlling athletes, matches, and expenses

- Back-end developed in **Java** with **SQL database**
- Creation of **REST APIs** for data manipulation
- Application of **OOP concepts** and data modeling

Casino Project (C)

- Academic project focused on programming logic and code structure

EDUCATION

Bachelor's Degree in Software Engineering

PUC Campinas – SP, Brazil

Jan/2024 – Dec/2027 *(In progress)*

COURSES & ADDITIONAL KNOWLEDGE

- Web Development (HTML5, CSS3, JavaScript, Node.js)
- Databases (MySQL, Oracle SQL, SQL Server)
- Object-Oriented Programming (Java, Python, C, Kotlin)
- Version Control (Git/GitHub)
- Information Security and LGPD

LANGUAGES

- **Portuguese – Fluent**
- **English – Advanced**
