PROFESSIONAL SUMMARY

Software Engineering student seeking an **international or remote internship in Software Development**, with strong interest in hands-on learning, technical growth, and contributing to real-world projects in collaborative, distributed teams.

I have a solid foundation in web development, with hands-on experience using **JavaScript, HTML5, CSS3, Node.js, Java, and SQL**, gained through academic and personal projects. I have worked on front-end interfaces, REST API development and consumption, relational database modeling, and version control using Git and GitHub.

I am proactive, well-organized, and highly motivated to learn, with strong communication skills and the ability to work effectively in remote and team-based environments.

TECHNICAL SKILLS

- JavaScript (ES6+)
- HTML5 | CSS3 (Responsive layouts)
- Front-end Web Development
- Node.js | REST API Development
- SQL Databases (MySQL, SQL Server, Oracle)
- Java

- Object-Oriented Programming (OOP)
- Git | GitHub (Version control)
- Programming Logic

EXPERIENCE

Developer in Training | Freelancer | Self-Employed

Academic and Personal Projects (Remote)

Jan 2024 – Present

- Developed complete web applications in a remote environment, organizing user information into clean and well-structured interfaces with a strong focus on usability and clarity
- Built responsive front-end interfaces using HTML5, CSS3, and JavaScript, applying best practices for code organization and readability
- Developed and consumed REST APIs using Java and Node.js, implementing CRUD operations and ensuring efficient integration between front-end, back-end, and databases
- Designed and managed SQL databases for dynamic data storage and manipulation, applying relational data modeling concepts
- Developed a sports management dashboard to organize teams, track expenses, and manage athletes
- Used Git and GitHub for version control, change tracking, and asynchronous collaboration

PROJECTS

Full Stack Web Portfolio

- End-to-end development of a personal web portfolio
- Single-page interface focused on usability and clean design
- Technologies: HTML5, CSS3, JavaScript, Git/GitHub

Dashboard Fut 360

- Sports management system for tracking athletes, matches, and expenses

- Back-end developed in Java with an SQL database
- REST API development for data manipulation
- Application of OOP principles and data modeling

EDUCATION

Bachelor's Degree in Software Engineering

PUC Campinas – Brazil

Jan 2024 – Dec 2027 (In progress)

COURSES & ADDITIONAL KNOWLEDGE

- Web Development (HTML5, CSS3, JavaScript, Node.js)
- Databases (MySQL, Oracle SQL, SQL Server)
- Object-Oriented Programming (Java, Python, C, Kotlin)
- Version Control (Git/GitHub)
- Information Security and LGPD

LANGUAGES

- **Portuguese:** Fluent (Native)
- **English:** Advanced
